Functionality ID	Test Summary	Test Steps	Test Data	Actual Result
		Admin		
101	After open link check Admin page open properly or not.	. open link 2. click on Admin	-	When i click on Admin then it should be open proper page.
101	After open link check Admin page open with tab key or not.	1. open link 2. move cursor on Admin and click	-	When i move cursor on Admin and click then it should be open properly.
102	After open Admin page check header options are clickable or not.	. open link on Admin 3. Check header options	-	When i click on header then it should be open properly.
103	After open admin page check user management is open proper or not.	. open link ick on Admin 3. check user management	-	When i click on user management then it should be open properly.
104	After open user managenment check search button is work or not.	. open link ick on Admin 3. open user nagement 4. check search button	sername - Admin role - Admin E name - Monkey D. Luffy statues - enabled	When i click on search button then it should be work properly.
105	After open user managenment check reset button is work or not.	. open link ick on Admin 3. open user nagement 4. check reset button	sername - Admin role - Admin E name - Monkey D. Luffy statues - enabled	When i click on reset button then it should be work properly.
106	After open user managenment check add button is work or not.	. open link ick on Admin 3. open user nagement 4. check add button	-	When i click on add button then it should be open add page properly.

107	After open user managenment check save button is work or not.	. open link ick on Admin 3. open user nagement 4. check save button without data	-	When i click on save button then it should be show an error.
108	After open user managenment check save button is work or not.	. open link ick on Admin 3. open user nagement 4. check save button with wrong data	J R - Admin tues - Enabled P. - 12345 me - sdjvnkv me - dsnchb C P - 12345	When i click on save button then it should be show an error.
109	After open user managenment check cancle button is work or not.	. open link ick on Admin 3. open user nagement 4. check cancle button	-	When i click on cancle button then it should be work properly.
110	After open admin check job titles is open or not.	. open link ick on Admin 3. open job title	-	When i click on job title then it should be open proper page.
111	After open job titles check delete option is work or not.	. open link ick on Admin pen job titles 4. check delete button	-	When i click on delete buytton then it should be delete successfuly.
112	After open job titles check edit option is work or not.	. open link ick on Admin pen job titles 4. check edit button	job des. - djch ccbiv	When i click on save button then it should be save succesfuly.
113	After open job titles check add option is work or not.	. open link ick on Admin pen job titles 4. check add button	J Title - dsnv	When i click on save then it should be add succesfuly.
114	After open admin check pay grades is open proper or not.	1. open link pen admin 3. open job grades	-	When i click on job grades then it should be open properly.

115	After open job grades check delete button is work or not.	1. open link open admin en job grades 4. check delete button	-	When i click on delete then it shoule be work properly.
116	After open job grades check add button is work or not.	1. open link open admin en job grades 4. check add button	name - sdbvjnv	When i click on save then it should be add succesfuly.
117	After open job grades check edit button is work or not.	1. open link open admin en job grades 4. check edit button	name - dskc	When i click on save then it should be edit succesfuly.
118	After open admin check Employment Status page is open is not	1. open link open admin 3. open employment status	-	When i click on employment status then it should be open properly.
119	After open employment status check delete button is work or not.	1. open link open admin 3. open employment atus 4. check delete button	-	When i click on delete then it shoule be work properly.
120	After open employment status check add button is work or not.	1. open link open admin 3. open employment atus 4. check add button	name - trugjh	When i click on save then it shoule be work properly.
121	After open employment status check edit button is work or not.	1. open link open admin 3. open employment atus 4. check edit button	name - sdjnv	When i click on edit then it shoule be work properly.
122	After open admin check job categories page is open or not.	1. open link open admin 3. open categories page	-	When i click on job categories then it should be open properly.

123	After open job categories check delete button is work or not.	1. open link open admin 3. open categories page 4. check delete button	--	When i click on delete button then it should be work properly.
124	After open job categories check add button is work or not.	1. open link open admin 3. open categories page 4. check add button	name - sdjnv	When i click on save then it should be work properly.
125	After open job categories check edit button is work or not.	1. open link open admin 3. open categories page 4. check edit button	name - shkdd	When i click on save then it should be work properly.
126	After open admin check work shifts page is open or not.	1. open link open admin 3. open work shifts page	-	When i click on work shoft then it should be open properly.
127	After open work shifts page check delete option is work or not.	1. open link open admin 3. open work shifts page 4. check delete button	-	When i click on delete then it should be work properly.
128	After open work shifts page check add option is work or not.	1. open link open admin 3. open work shifts page 4. check add button	Shift name - sdjbc	When i click on save then it should be work properly.
129	After open work shifts page check edit option is work or not.	1. open link open admin 3. open work shifts page 4. check edit button	Shift name - sdjfv	When i click on save then it should be work properly.

130	After open Admin Check general information option is work or not.	1. open link open admin 3. check general information	-	When i click on general information then it should be open properly.
130	After open Admin Check general information option with tab key is work or not.	1. open link open admin 3. check general information with tab key	-	When i click on general information then it should be open properly.
131	After open general information page check edit button is work or not.	1. open link open admin 3. open general mation 4. check edit button	Email - abcd@gmail.com	When i click on save then it should be save successfuly.
132	After open admin check location page is open or not.	1. open link open admin 3. open location page	-	When i click on location then it should be open properly.
132	After open admin check location page with tab key is open or not.	1. open link open admin 3. open location page with tab key	-	When i click on location then it should be open properly.
133	After open location check search button is work or not.	1. open link open admin location page 4. check search button	ame - Texas R&D ity - Texas country - US	When i click on save then it should be work properly.
134	After open location check reset button is work or not.	1. open link open admin location page 4. check reset button	ame - Texas R&D ity - Texas country - US	When i click on reset then it should be work properly.
135	After open location check add option with wrong data is work or not.	1. open link open admin location page 4. check add button with wrong data	ame - sdjn country - nfjasd	When i click on save then it should be show an error.

136	After open location check add option with right data is work or not.	1. open link open admin location page 4. check add button with right data	name - manthan country - india	When i click on save then it should be add successfuly.
137	After open location check delete option is work or not.	1. open link open admin location page 4. check delete button	-	When i click on delete then it should be work properly.
138	After open location check edit option is work or not.	1. open link open admin location page 4. check edit button	name - sdbc	When i click on save then it should be save successfuly.
139	After open admin check structure page ie open or not.	1. open link open admin 3. open structure page	-	When i click on structure then it should be open properly.
139	After open admin check structure page with tab key ie open or not.	1. open link open admin 3. open structure page with tab key	-	When i click on structure then it should be open properly.
140	After open structure page check edit option is work or not.	1. open link open admin 3. open structure page 4. check edit button	-	When i click on edit button then it should be on & off properly.
141	After open structure page check +add option with wrong data is work or not.	1. open link open admin 3. open structure page 4. check +add button with wrong data	name - sdbffi	When i click on save then it should be show an error.

142	After open structure page check +add option with right data is work or not.	1. open link 2. open admin 3. open structure page 4. check +add button with right data	name - manthan	When i click on save then it should be save successfuly.
143	After open structure page check + option with right data is work or not.	1. open link 2. open admin 3. open structure page 4. check + button with right data	name - sdnv	When i click on save then it should be save successfuly.
144	After open structure page check delete button is work or not.	1. open link 2. open admin 3. open structure page 4. check delete button	-	When i click on delete button then it should be work properly.
145	After open structure page check edit button is work or not.	1. open link 2. open admin 3. open structure page 4. check edit button	name - sdbvv U id - 123456	When i click on save then it should be work properly.
146	After open admin check skill page open properly or not.	1. open link 2. open admin 3. open skill page	-	When i click on skill then it should be open proper page.
146	After open admin check skill page open with tab key properly or not.	1. open link 2. open admin 3. open skill page with tab key	-	When i click on skill then it should be open proper page.
147	After open skill page check edit button is work or not.	1. open link 2. open admin 3. open skill page 4.check edit button	name - djcnc	When i click on save then it should be save successfuly.

148	After open skill page check add button is work or not.	1. open link open admin open skill page 4.check add button	name - sdjvs	When i click on save then it should be save successfuly.
149	After open skill page check delete button is work or not.	1. open link open admin open skill page 4.check delete button	-	When i click on delete button then it should be work properly.
150	After open admin Check educations page open proper or not.	1. open link open admin 3. open educations page	-	When i click on educations then it should be open proper page.
150	After open admin Check educations page open with tab key is proper or not.	1. open link open admin 3. open educations page with tab key	-	When i click on educations then it should be open proper page.
151	After open educations page check edit button is work or not.	1. open link open admin 3. open educations 4. check edit button	name - sdnn	When i click on save then it should be save successfuly.
152	After open educations page check add button is work or not.	1. open link open admin 3. open educations 4. check add button	name - sdvn	When i click on save then it should be save successfuly.
153	After open educations page check delete button is work or not.	1. open link open admin 3. open educations 4. check delete button	-	When i click on delete button then it should be work properly.
154	After open admin Check licenses page open is proper or not.	1. open link open admin 3. open licenses page	-	When i click on licenses then it should be open proper page

154	After open admin Check licenses page open with tab key is proper or not.	1. open link open admin 3. open licenses page with tab key	-	When i click on licenses then it should be open proper page
155	After open licenses page check edit button is work or not.	1. open link open admin licenses page 4. check edit button	name - dnvdv	When i click on save then it should be save successfuly.
156	After open licenses page check add button is work or not.	1. open link open admin licenses page 4. check add button	name - jfdvv	When i click on save then it should be save successfuly.
157	After open licenses page check delete button is work or not.	1. open link open admin licenses page 4. check delete button	-	When i click on delete button then it should be work properly.
158	After open admin check languages page open proper or not.	1. open link open admin 3. open languages page	-	When i click on languages then it should be open proper page.
158	After open admin check languages page open proper or not.	1. open link open admin 3. open languages page with tab key	-	When i click on languages then it should be open proper page.
159	After open languages page check edit button is work or not.	1. open link open admin 3. open languages page 4. check edit button	name - khsbf	When i click on save then it should be save successfuly.
160	After open languages page check add button is work or not.	1. open link open admin 3. open languages page 4. check add button	name - sjdfvn	When i click on save then it should be save successfuly.

161	After open languages page check delete button is work or not.	1. open link open admin 3. open languages page 4. check delete button	-	When i click on delete button then it should be work properly.
162	After oprn admin check membership page is open proper or not.	1. open link open admin 3. open membership page	-	When i click on membership then it should be open proper page.
162	After oprn admin check membership page with tab key is open proper or not.	1. open link open admin 3. open membership page with tab key	-	When i click on membership then it should be open proper page.
163	After open membership page check edit button is work or not.	1. open link open admin 3. open membership page 4. check edit button	nombre - khsbf	When i click on save then it should be save successfuly.
164	After open membership page check add button is work or not.	1. open link open admin 3. open membership page 4. check add button	nombre - sjdfvn	When i click on save then it should be save successfuly.
165	After open membership page check delete button is work or not.	1. open link open admin 3. open membership page 4. check delete button	-	When i click on delete button then it should be work properly.
166	After open admin Check nationalities page is open proper or not.	1. open link open admin 3. open nationalities page	-	When i click on nationalities then it should be open proper page.
166	After open admin Check nationalities page is with tab key open proper or not.	1. open link open admin 3. open nationalities page with tab key	-	When i click on nationalities then it should be open proper page.

167	After open nationalities page check edit button is work or not.	1. open link open admin 3. open nationalities page 4. check edit button	nombre - khsbf	When i click on save then it should be save successfuly.
168	After open nationalities page check add button is work or not.	1. open link open admin 3. open nationalities page 4. check add button	nombre - sjdfvn	When i click on save then it should be save successfuly.
169	After open nationalities page check delete button is work or not.	1. open link open admin 3. open nationalities page 4. check delete button	-	When i click on delete button then it should be work properly.
170	After open admin page Check corporate baranding page is open proper or not.	1. open link open admin 3. open corporate baranding page	-	When i click on corporate baranding then it should be open proper page.
170	After open admin page Check corporate baranding page is open with tab key proper or not.	1. open link open admin 3. open corporate baranding page with tab key	-	When i click on corporate baranding then it should be open proper page.
171	After open corporate baranding page check browser is work or not.	1. open link open admin 3. open corporate g page 4. check browser button	-	When i click on browser button then it should be work properly.

172	After open corporate baranding page check colour change is work or not.	1. open link open admin 3. open corporate g page 4. check colour change button	-	When i change colour then it should be work properly.
173	After open corporate baranding page Check social media imeges option is work or not.	1. open link open admin 3. open corporate g page 4. check social media imeges button	-	When i click on social media imeges then it should be work properly.
174	After open corporate baranding page Check reset to default option is work or not.	1. open link open admin 3. open corporate g page 4. check reset to default button	-	When i click on reset to default option then it should be work properly.
175	After open corporate baranding page Check preview option is work or not.	1. open link open admin 3. open corporate g page 4. check preview button	-	When i click on preview button then it should be work properly.
176	After open corporate baranding page Check publish option is work or not.	1. open link open admin 3. open corporate g page 4. check publish button	-	When i click on publish button then it should be work properly.
177	After open admi Check email configuration page open proper or not.	1. open link open admin 3. open email configuration page	-	When i click on email configuration then it should be open proper page.

177	After open admi Check email configuration page open with tab key is proper or not.	1. open link open admin 3. open email configuration page with tab key	-	When i click on email configuration then it should be open proper page.
178	After open email configuration check save button is work or not.	1. open link open admin 3. open email tion page 4. check save button	mail sent as - djcjnd@gmail.com	When i click on save button then it should be save succesfuly.
179	After open email configuration check reset button is work or not.	1. open link open admin 3. open email tion page 4. check reset button	-	When i click on save button then it should be reset succesfuly.
180	After open admin Check email subscription page open proper or not.	1. open link open admin 3. open email subscription page	-	When i click on email subscription then it should be open proper page.
180	After open admin Check email subscription page open with tab key is proper or not.	1. open link open admin 3. open email subscription page with tab key	-	When i click on email subscription then it should be open proper page.
181	After open email subscription page check add button is work proper or not.	1. open link open admin 3. open email cription page 4. check add button	ame - sidpvv email - kjdc@gmail. com	When i click on save button then it should be work properly.
182	After open email subscription page check edit button is work proper or not.	1. open link open admin 3. open email cription page 4. check edit button	name - dnck	When i click on save button then it should be work properly.

183	After open email subscription page check delete button is work proper or not.	1. open link 2. open admin 3. open email subscription page 4. check delete button	-	When i click on delete then it should be work properly.
184	After open admin check localizetion page open proper or not.	1. open link 2. open admin 3. open localizetion page	-	When i click on localizetion then it should be open proper page.
184	After open admin check localizetion page open with tab key is proper or not.	1. open link 2. open admin 3. open localizetion page with tab key	-	When i click on localizetion then it should be open proper page.
185	After open localizetion check save button is work or not.	1. open link 2. open admin 3. open localizetion page 4. check save button	language - English (US)	When i click on save button then it should be save succesfuly.
