					Header				
1	101	Check Website Link	After Enter Link Check Website is open properly or not	Internet, Browser & Website in working condition	1. Open Browser [Google Chrome] 2. Enter Link	https://demo.opencart.com/	After Entering Link Check Website should be open properly	As per Expected Result	Pass
2	101	Check Website Link	After Enter Link in Google Chrome Check it's working in other browser or not	Internet, Browser & Website in working condition	1. EnterLink[Google Chrome] 2. Enter Link[Microsoft Edge] 3.Enter Link[Firefox]	https://demo.opencart.com/	Cross Browser testing should be work proeprly	As per Expected Result	Pass
3	102	Check website connection	After open link in Google chrome Check website is secure or not	Internet, Browser & Website in working condition	1. Open Browser [Google Chrome] 2. Enter Link 3. Click on Link Icon	-	After Open Website it should be secure	As per Expected Result	Pass
4	103	Check tab preview	After open website check tab preview is visible or not	Internet, Browser & Website in working condition	1. Enter link 2. open new teb 3. Move cursor on previous tab	-	When i move cursor exiting tab to anthor tab it should be work properly	Margin in preview is not correct in preview contact will be cut	Fail
5	104	Check logo	After open website check logo is proper visible or not and it's working or not	Internet, Browser & Website in working condition	1. Enter link 2. Click on logo	-	When i click on logo it should be redirect on homepage	As per Expected Result	Pass
6	104	Check logo with title	After open website check logo and title is proper visible or not and it's working or not	Internet, Browser & Website in working condition	1.Enter link 2. Click on logo 3. Click on title	-	When i click on logo it should be redirect on homepage and title also need work properly	As per Expected Result	Pass
7	105	check header option	After open website check header option is properly visible or not and also ckeck hover effect	Internet, Browser & Website in working condition	1. Enter link 2. Move cursor on header option	-	When i Move Cursor on Header Options it should be working smoothly and also need to show hover effect	When i move cursor on header option then it's not showing hover effect	Fail
8	105	check header option	After open website check header option is working proper with tab key or not	Internet, Browser & Website in working condition	1 Enter link 2. Press tab key and check header hover effect	-	When i Move Cursor using TAB key it should be visible properly and UI also show properly	As per Expected Result	Pass
9	106	Check header option click	After open website check header option click is working proper or not	Internet, Browser & Website in working condition	1. Enter link 2. Click on every header option	-	When i click on every header option it should be open proper page	As per Expected Result	Pass
10	107	Check search option	After open website check search option is working proper or not [with search logo]	Internet, Browser & Website in working condition	1. Enter link 2. click on search option 3. search product and click on search button	-	When i search product then it's show me that product and if this product is not available then it's show en error	As per Expected Result	Pass
11	107	Check search option	After open website check search option is working proper or not [with enter button]	Internet, Browser & Website in working condition	1. Enter link 2. click on search option 3. search product and click on enter button	-	When i search product then it's show me that product and if this product is not available then it's show en error	As per Expected Result	Pass
12	108	check item(s) option	After open website check item (s) option is show hover effect proper or not	Internet, Browser & Website in working condition	1. Enter link 2. move cursor on item(s) option	-	When i move cursor on item(s) option it should be show hover effect.	When i move cursor on item (s) option then it's not showing proper hover effect.	Fail
13	108	check item(s) option	After open website check item (s) option is open [with tab key+enter] or not	Internet, Browser & Website in working condition	1. Enter link 2. move cursor with tab key 3. open with enter button	-	When i move cursor on item(s) option with tab key and press enter then it should be open properly.	As per Expected Result	Pass
14	108	check item(s) option	After open website check item (s) option is open and work properly or not	Internet, Browser & Website in working condition	1. Enter link 2. add any product on cart	-	When i add any product on cart it's added succesfuly and in item(s) showing properly.	As per Expected Result	Pass
15	109	Check home page view	After open link check home page view is perfect or not.	Internet, Browser & Website in working condition	1. open link 2. check home page view	-	When i open link and check home page view then there should be product box is perfectly show.	When i open link then product box is not perfect.	Fail
					Slider				
16	110	Check header slider next button	After open link check header slider next button is working properly or not	Internet, Browser & Website in working condition	1. open link 2. check header slider next button	-	When i click on slider next button then it should be working properly.	As per Expected result	Pass
17	110	Check footer slider next button	After open link check footer slider next button is working properly or not	Internet, Browser & Website in working condition	1. open link 2. check footer slider next button	-	When i click on slider next button then it should be working properly.	As per Expected result	Pass
18	110	Check header slider next button with tab key and enter	After open link check header slider next button is working properly or not [with tab key and enter]	Internet, Browser & Website in working condition	1. open link 2. check header slider next button with tab key and enter	-	When i move cursor on slider next button then it should be show hover effect and work peoperly.	It's not show proper hover effect	Fail
19	110	Check footer slider next button with tab key and enter	After open link check footer slider next button is working properly or not [with tab key and enter]	Internet, Browser & Website in working condition	1. open link 2. check footer slider next button with tab key and enter	-	When i move cursor on slider next button then it should be show hover effect and work peoperly.	It's not show proper hover effect.	Fail
20	111	Check header slider previous button	After open link check header slider previous button is working properly or not	Internet, Browser & Website in working condition	1. open link 2. check header slider previous button	-	When i click on slider previous button then it should be work properly.	As per Expected result	Pass
21	111	Check footer slider previous button	After open link check footer slider previous button is working properly or not	Internet, Browser & Website in working condition	1. open link 2. check footer slider previous button	-	When i click slider previous button then it should be work properly.	As per Expected result	Pass
22	111	Check header slider previous button with tab key and enter	After open link check header slider previous button is working properly or not [with tab key and enter]	Internet, Browser & Website in working condition	1. open link 2. ckeck header slider previuos button with tab key and enter	-	When i move cursor on slider previous button then it should be show hover effect and work properly.	It's not show proper hover effect	Fail
23	111	Check footer slider previous button with tab key and enter	After open link check footer slider previous button is working properly or not [with tab key and enter]	Internet, Browser & Website in working condition	1. open link 2. ckeck footer slider previuos button with tab key and enter	-	When i move cursor on slider previous button then it should be show hover effect and when i click many time on previous then it should be not change slider animation.	It's not show proper hover effect and when i click on many time then animation is change.	Fail
24	112	Check header slider indicators	After open link check header slider indicators is work proper or not	Internet, Browser & Website in working condition	1. open lonk 2. check header slider's indicators	-	When i click on slider indicators then it should be work properly.	As per Expected result	Pass
25	112	Check footer slider indicators	After open link check footer slider indicators is work proper or not	Internet, Browser & Website in working condition	1. open lonk 2. check footer slider's indicators	-	When i click on slider indicators then it should be work properly.	As per Expected result	Pass
					Categories				
26	113	Check hover effect	After open link check categorie's all options hover effect	Internet, Browser & Website in working condition	1. open link 2. check categories hover effect	-	When i move cursoe on categories option then show the hover effect perfectly.	As per Expected result	Pass
27	113	Check hover effect with tab key	After open link check categorie's all options hover effect [with tab key]	Internet, Browser & Website in working condition	1. open link 2. check categories hover effect [with tab key]	-	When i move cursoe with tab key on categories option then show the hover effect perfectly.	As per Expected result	Pass
28	114	Check desktops Categories open functionality	After open link check desktops option open properly or not	Internet, Browser & Website in working condition	1. open link 2. check desktops categorie open proper or not	-	When i click on desktops then it should be open properly.	As per Expected result	Pass
29	114	Check desktops Categories open functionality with tab key	After open link check desktops option open properly or not [with tab key]	Internet, Browser & Website in working condition	1. open link 2. check desktops categorie open proper or not [with tab key]	-	When i click on desktops then it should be open properly.	As per Expected result	Pass
30	114	Check desktops categorie list	After open link check move cursor on categories then list show or not	Internet, Browser & Website in working condition	1. open link 2. check desktops categorie list show or not	-	When i move cursor on desktops then it should be show his list properly.	As per Expected result	Pass

No	ID	Test Case	Description	Precondition	Test Steps	-	Expected Result	Actual Result	Status
31	114	Check desktops page view	After open link open desktop and check view	Internet, Browser & Website in working condition	1. open link 2. open desktops categories 3. check desktops view	-	When i open desktops then it should be show only desktops products.	When i open desktop then it's showing other products.	Fail
32	114	Check list and grid option	After open link open desktops then check list and grid option is wore proper or not	Internet, Browser & Website in working condition	1. open link 2. open desktops categories 3. ckeck list and grid option	-	When i click on grid and when i click on list then it should be work properly.	As per Expected result	Pass
33	114	Check short by option	After open link open desktop and ckeck short by option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open desktops categories 3. ckeck short by option	-	When i change something in short by option then it should be work properly.	As per Expected result	Pass
34	114	Check show option	After open link open desktop and ckeck show option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open desktops categories 3. ckeck show option	-	When i change something in show option then it should be work properly.	As per Expected result	Pass
35	115	Check laptops & notebooks Categories open functionality	After open link check laptops & notebooks option open or not.	Internet, Browser & Website in working condition	1. open link 2. check laptops & notebooks categorie open proper or not	-	When i click on laptops & notebooks then it should be open properly.	As per Expected result	Pass
36	115	Check laptops & notebooks Categories open functionality [with tab key]	After open link check laptops & notebooks option open or not. [with tab key]	Internet, Browser & Website in working condition	1. open link 2. check laptops & notebooks categorie open proper or not [with tab key]	-	When i click on laptops & notebooks with tab key then it should be open properly.	As per Expected result	Pass
37	115	Check laptop & notebooks categorie list	After open link check move cursor on laptop & notebooks categorie and list show proper or not.	Internet, Browser & Website in working condition	1. open link 2. move cursor laptops & notebooks categorie and list show proper or not	-	When i move cursor on laptop & notebooks categorie then it should be shouls be show list.	As per Expected result	Pass
38	115	Check laptop & notebooks categorie list	After open link check laptop & notebooks categorie list is proper on not.	Internet, Browser & Website in working condition	1. open link 2. open list's es one by one 3. open laptop & notebooks all	-	When i click on categorie then open particular categorie and click on open all then it should be open all laptop & notebooks.	When i click on mac categorie then it's not show any mac but when i click on all laptop & notebooks then it's show mac and laptops. It's not correct.	Fail
39	115	Check laptop & notebooks categorie page view	After open link check laptop & notebooks categorie page view	Internet, Browser & Website in working condition	1. open link 2. open laptops & categorie 3. check laptop & notebooks page view	-	When i open laptop & notebooks then it should be show proper products.	As per Expected result	Pass
40	115	Check laptop & notebooks page's list & grid option	After open link check laptop & notebooks list & grid option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open laptops & categorie 3. check list & grid option	-	When i click on list and when i click on grid option then it should be work properly.	As per Expected result	Pass
41	115	Check laptop & notebooks page's short by option	After open link check laptop & notebook page's short by option is work or not.	Internet, Browser & Website in working condition	1. open link 2. open laptops & categorie 3. check short by option	-	When i change something in short by option then it should be work properly.	As per Expected result	Pass
42	115	Check laptop & notebooks page's show option	After open link check laptop & notebook page's show option is work or not.	Internet, Browser & Website in working condition	1. open link 2. open laptops & categorie 3. check show option	-	When i change something in show option then it should be work properly.	As per Expected result	Pass
43	116	Check components Categories open functionality	After open link check components categorie is open or not.	Internet, Browser & Website in working condition	1. open link 2. open components categorie	-	When i click on component categorie then it should be open properly.	As per Expected result	Pass
44	116	Check components Categories open functionality [with tab key]	After open link check components categorie open with tab key is work or not.	Internet, Browser & Website in working condition	1. open link 2. open components categorie [with tab key]	-	When i click click on components categorie with tab key then it should be open properly.	As per Expected result	Pass
45	116	Check components categorie list	After open link move cursor on components then list show or not.	Internet, Browser & Website in working condition	1. open link 2. move cursor no components	-	When i move cursor on components then list show properly.	As per Expected result	Pass
46	116	Check components categorie list	After open link check components categorie list proper show or not.	Internet, Browser & Website in working condition	1. open link 2. click on components categorie 3. check list	-	When i click on sab categories then it should be show proper that product and when i click on all components then it should be show all sab categories products.	When i click on sab categories then it's not show proper products but when i click on all components then it's not show any product.	Fail
47	116	Check components categories page view	After open link check components categories page view is proper or not.	Internet, Browser & Website in working condition	1. open link 2. open components categorie page and check view	-	When i open components categorie page then it shouls be show proper page view.	As per Expected result	Pass
48	116	Check components categorie list & grid option	After open link open components categorie page then check grid & list option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open components egorie page 3. check list & rid option	-	When i click on list and when i click on grid option then it should be work properly.	As per Expected result	Pass
49	116	Check components categorie short by option	After open link check components categorie page's short by option is work or not.	Internet, Browser & Website in working condition	1. open link 2. open components egorie page 3. check short by option	-	When i change something in short by option then it should be work properly.	As per Expected result	Pass
50	116	Check components categorie show option	After open link check components categorie page's show option is work or not.	Internet, Browser & Website in working condition	1. open link 2. open components egorie page 3. check show option	-	When i change something in show option then it should be work properly.	As per Expected result	Pass
51	117	Check tablets Categories open functionality	After open link check tablets categorie page open proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets categorie page	-	When i click on tablets categorie then it should be open proper page.	As per Expected result	Pass
52	117	Check tablets Categories open functionality [with tab key]	After open link check open tablets categorie page with tab key is proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets categorie page with tab key	-	When i click on tablets categorie with tab key then it should be open proper page.	As per Expected result	Pass
53	117	Check tablets Categories list	After open link check tablets categorie's list proper or not.	Internet, Browser & Website in working condition	1. open link 2. move cursor on tablets categorie	-	When i move cursor on tablets categorie then it should be show list.	When i move cursor on tablets categorie then it's not show list.	Fail
54	117	Check tablets Categories page view	After open link check check tablets categorie page view is proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets categorie page & check the view	-	When i open tablets categorie page then it should be show proper page view.	As per Expected result	Pass
55	117	Check tablets Categories list & grid option	After open link check tablets categorie page's list & grid option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets gorie page 3. check list & grid option	-	When i click on list and when i click on grid option then it's work properly.	As per Expected result	Pass
56	117	Check tablets Categories short by option	After open link check tablets categorie page's short by option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets gorie page 3. check short by option	-	When i change something in short by option then it's work properly.	As per Expected result	Pass
57	117	Check tablets Categories show option	After open link check tablets categorie page's show option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets gorie page 3. check show option	-	When i change something in show option then it's work properly.	As per Expected result	Pass
58	118	Check software Categories open functionality	After open link check software categorie page open proper or not.	Internet, Browser & Website in working condition	1. open link 2. open software categorie	-	When i click on software categorie then it should be open properly.	As per Expected result	Pass

No	ID	Test Title	Description	Pre-condition	Test Steps		Expected Result	Actual Result	Status
59	118	Check software Categories open functionality with tab key	After open link check open software categorie page with tab key is proper or not.	Internet, Browser & Website in working condition	. open link 2. open software categorie with tab key	-	When i click on software categorie with tab key then it should be open properly.	As per Expected result	Pass
60	118	Check software categorie list	After open link check software categorie's list show proper or not.	Internet, Browser & Website in working condition	. open link 2. move cursor on software categorie	-	When i move cursor on software categorie then it should be show proper list.	When i move cursor on software categorie then it's not show list.	Fail
61	118	Check software categorie page view	After open page check software categorie page view is proper or not.	Internet, Browser & Website in working condition	. open link 2. open software categorie & check the view	-	When i click on software categorie then it should be show proper page view.	When i click on saftware categorie then it's not show any product & not show any option.	Fail
62	119	Check phones & PDAs Categories open functionality	After open link check phones & PDAs Categories open proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & PDAs Categories	-	When i click on phones & PDAs Categories then it should be ipen properly.	As per Expected result	Pass
63	119	Check phones & PDAs Categories open functionality with tab key	After open link check open phones & PDAs Categories with tab key is proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & PDAs Categories with tab key	-	When i click on phones & PDAs Categories with tab key then it should be ipen properly.	As per Expected result	Pass
64	119	Check phones & PDAs Categorie list	After open link check phones & PDAs Categorie's list show proper or not.	Internet, Browser & Website in working condition	. open link 2. move cursor on phones & PDAs Categorie	-	When i move cursor on phones & PDAs Categorie then it should be show proper list.	When i move cursor on phones & PDAs Categorie then it's not show list.	Fail
65	119	Check phones & PDAs Categorie page view	After open link check phones & PDAs Categorie page view is proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & PDAs Categorie and check the view	-	When i click on phones & PDAs Categorie then it should be show proper page view.	As per Expected result	Pass
66	119	Check phones & PDAs Categorie list & grid option	After open link check phones & PDAs Categorie's list & grid option is work proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & s Categories 3. check list & grid option	-	When i click on list and when i click on grid option then it's work properly.	As per Expected result	Pass
67	119	Check phones & PDAs Categorie short by option	After open link check phones & PDAs Categorie's short by option is work proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & s Categories 3. check short by option	-	When i chenge something in short by option then it's work properly.	As per Expected result	Pass
68	119	Check phones & PDAs Categorie show option	After open link check phones & PDAs Categorie's show option is work proper or not.	Internet, Browser & Website in working condition	. open link 2. open phones & s Categories 3. check show option	-	When i chenge something in show option then it's work properly.	As per Expected result	Pass
69	120	Check cameras categories open functionality	After open link check cameras categorie open functionality is work or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie	-	When i click on cameras categorie then it should be open properly.	As per Expected result	Pass
70	120	Check cameras categories open functionality with tab key	After open link check open cameras categorie with tab key is work or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie with tab key	-	When i click on cameras categorie with tab key then it should be open properly.	As per Expected result	Pass
71	120	Check cameras catrgorie list	After open link check cameras categorie's list show proper or not.	Internet, Browser & Website in working condition	. open link 2. move cursor on cameras categorie	-	When i move cursor on cameras categorie then it should be show proper list.	When i move cursor on cameras categorie then it's not show list.	Fail
72	120	Check cameras categorie page view	After open link check cameras categorie page view show proper or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie & check the view	-	When i click on cameras categorie then it should be show proper view.	As per Expected result	Pass
73	120	Check cameras categorie list & grid option	After open link check cameras categorie's list & grid option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie 3. check list & grid option	-	When i click on list and when i click on grid option then it's work properly.	As per Expected result	Pass
74	120	Check cameras categorie short by option	After open link check cameras categorie's short by option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie 3. check short by option	-	When i chenge something in short by option then it's work properly.	As per Expected result	Pass
75	120	Check cameras categorie show option	After open link check cameras categorie's show option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie 3. check show option	-	When i chenge something in show option then it's work properly.	As per Expected result	Pass
76	121	Check MP3 players categories open functionality	After open link check MP3 players categorie open functionality is work or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 players categorie	-	When i click on MP3 players categorie then it should be open properly.	As per Expected result	Pass
77	121	Check MP3 players categories open functionality with tab key	After open link check open MP3 players categorie with tab key is work or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 players categorie with tab key	-	When i click on MP3 players categorie with tab key then it should be open properly.	As per Expected result	Pass
78	121	Check MP3 players catrgorie list	After open link check MP3 players categorie list show or not.	Internet, Browser & Website in working condition	1. open link 2. move cursor on MP3 players categorie	-	When i move cursor on MP3 player categorie then it should be show list properly.	As per Expected result	Pass
79	121	Check MP3 players catrgorie list	After open link check MP3 players categorie list is proper show product or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 player categorie's sab categorie	-	When i open sab categorie then it should be show product properly.	When i open sab categories then it's not show any product but when i click on show all MP3 players then it's show some products.	Fail
80	121	Check MP3 players categorie's page view	After open link check MP3 players categorie page view is proper or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 player categorie & check the view	-	When i click on MP3 players then it should be show proper page view.	As per Expected result	Pass
81	121	Check MP3 players categorie's list & grid option	After open link check MP3 players categorie's list & grid option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 player categorie 3. check list & grid option	-	When i click on list and when i click on grid option then it's work properly.	As per Expected result	Pass
82	121	Check MP3 players categorie's short by option	After open link check MP3 players categorie's short by option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 player categorie 3. check short by option	-	When i chenge something in short by option then it's work properly.	As per Expected result	Pass
83	121	Check MP3 players categorie's show option	After open link check MP3 players categorie's show option is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open MP3 player categorie 3. check show option	-	When i chenge something in show option then it's work properly.	As per Expected result	Pass
84	122	Check home button	After open link open desktop and ckeck home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open desktops categories 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
85	122	Check laptop & notebooks page's home button	After open link open laptop & notebooks page's and ckeck home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open laptop & ooks categories 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
86	122	Check components categorie home button	After open link open components categorie and check home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open components categorie 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
87	122	Check tablets categorie home button	After open link open tablets categorie and check home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open tablets categorie 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
88	122	Check software categorie home button	After open link open software categorie and check home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open software categorie 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
89	122	Check phones & PDAs categorie home button	After open link open phones & PDAs categorie and check home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open phones & DAs categorie 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass

90	122	Check cameras categorie home button	After open link open cameras categorie and check home button is work proper or not.	Internet, Browser & Website in working condition	1. open link 2. open cameras categorie 3. ckeck home button	-	When i click on home button then it should be open home page.	As per Expected result	Pass
